Before and After Taking.

Twelve months ago, or immediately after Bradley was elected United States Senator he began a most merciless attack on W. H. Taft then candidate for President. He said if Taft was nominated he would be defeated by Bryan sure. Taft carried the State, and at the State convention Bradley was snubbed and not allowed to go to the National Republican Convention.

Things have changed now, Bradley being given the general distribution of pie in Kentucky, has ceased his mutterings and said in a speech at Washington that Taft would make one of the greatest Presidents that ever occupied the White House.

The Times confesses that Taft is making a much better President than we ever thought possible for him to make being elected as he was, by the influence of moneyed trust, but he has certainly displayed a bit of cowardice in giving to Bradley the power he has given him in order to get a mouth shut that contains nothing but hot air.

How They Were Buncoed.

After the \$29,000,000 fine of the Standard Oil Company had been set aside and the case thrown out of court for always, John S. Miller, chief counsel for the trust, is reported to have said:

"This is the local end of the flamboyant 'trust-busting' campaign for political purposes that closed with the recent election. The language of the law evidently was made ambiguous purposefully by Congress, and I don't think it was intended to be enforced."

Of course Miller is right, everybody can see it now. Trust busting was only a method of fooling the voters just before the election and Congress did not intend that trusts should be punished, and neither did Roosevelt, for that matter. Those who voted the Republican ticket expecting the trusts to be punished have simply been buncoed as usual every leap year. But they seem to enjoy being humbugged.

Just How it Works.

In the iron works in Pennsylvania March 4th the price of puddling iron by common labor was reduced from \$4.50 to \$3.00 per ton. Hundreds of laborers were thus affected.

What a delightful gift to the workers the day of Taft's inauguration. Taft and all the Congressmen and other high salaried fellows had their already too high salaries nearly doubled, and the workers had their wages cut almost in two. But then the rich need an increase and the workers can well afford to pay it out of their abundance. This is why the Pennsylvania workers put up

such a great majority for Taft.

The price of iron is high. The steel trust is getting \$540 a ton for armor plate from the government that a Senate Committee proved was only costing \$67 a ton to produce. That is the reason they have cut wages. The cutting of wages has two sides, one to make millionaires faster, and the second and most important is to keep the workers so poor that they can never become independent.

Some sixty odd years ago, the counties of Carter, Elliott and Grayson issued bonds to assist in building a railroad through their bounds. The promoters of the road sold these bonds got the money and left the road as at the beginning, not a lick of work done. The citizens of these counties have all along resisted the collection of tax to pay this debt, now bobs up Governor Willson and says he will send soldiers up there and give force against force and collect the amount of bonds with interest. If the collection of money without value received is robbery, the collection for payment of these bonds is robbery, then what is Governor Willson a party to? Wonder if any of the Democrats and Anti-Saloon League people in those counties the votes of which elected him are still for Augustus E. Willson.

The penitentiary at Frankfort is full and they are still coming faster than ever. One third or over 500 of the convicts confined there are idle, nothing to do at all but pass the hours off in leisure while the state feeds and clothes them. The good times seem to have even reached the penitentiary, when the inmates can live and hot work. Millions outside of the prison walls are doing the same thing but we can't say how well they are living.

Being unable to run the State government on the prevailing revenue, and being unable to increase the tax rate or issue bonds for this purpose until the Legislature meets next winter the Willson administration is forced to raise the taxable property in every county of the State from 10 to 20 per cent. Wonderful isn't it, how we got along and kept out of debt during those good Democratic days, but we did, and lowered the tax rate too.

Tobacco Users Robbed.

Before the increased tax on tobacco for the benefit of the Spanish American war eleven years ago, under the Dingley

tariff law, the two ounce package of tobacco sold to the consumer for 5 cents and the four ounce package sold for 10 cents. In 1898 a war revenue tax of 6 cents a pound additional was levied on tobacco, and in order to serve the convenience of the trade, tobacco manufacturers were allowed to correspondingly reduce the size of the package tobacco so it could be still sold for 5 and 10 cents.

In due time the war revenue tax was repealed, but the size of tobacco packages was not changed. According to the figures obtained from the Commissioner of Internal Revenue, over 48 billion packages have been sold since the war tax was taken off, and the consumers have since been swindled out of one and two cents on each 5 and 10 cent package they buy.

The Republican party has committed itself to a reduction of the tariff and every member of that party in congress professes to be that way but our own John W. Langley. In discussing this question Monday, Mr. Langley said he was in favor of protection on every thing, and further said he would vote for a tax of \$2.00 per gallon on beer. Don't bother John he is only getting up the revenue to build those turnpikes he promised us last fall.

In Five Minutes.

Take your sour stomach—or may be you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain Triangule and see if within five minutes there is left any trace of your stomach misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness and many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is a matter of how soon you take a little Diapepsin.
